

Do you struggle with a **WEIGHT ISSUE** and suffer from **VARICOSE VEINS?**

LOSE the veins and **WIN** with our "Veins Can't Weight" Treatment.

Extra weight is one of several health factors that can contribute to varicose veins and make them especially difficult to bear. Fortunately, you don't have to suffer from the pain, achiness, burning, swelling, and other symptoms of varicose veins any longer. Dr. Traurig's "Vein's Can't Weight" treatment delivers innovative solutions for your vein issues, with the compassionate and personalized care you deserve.

5 reasons to choose Dr. Traurig's "Veins Can't Weight" treatment:

- 1 **Unparalleled expertise** – You'll be cared for by the most experienced and highly trained vein specialist in the region.
- 2 **FREE vein screening** – Pinpoint the source of your vein issues and get expert treatment recommendations.
- 3 **The most advanced treatments** – Including sclerotherapy (injection) therapy and Endovenous Laser Ablation (EVLA) with Dr. Traurig's state-of-the-art Cool Touch Laser. NO downtime, and virtually NO pain.
- 4 **Genuine care and compassion** – From a team committed to meeting your individual needs.
- 5 **Convenient appointments and in-office treatments** – Because we know you have a busy life to get back to!
